Homework help:

1. *Math Lab*: It is in the room SH 1607 and is open M-F 12-5. You can do your homework there and raise your hand whenever you have questions. You can also work with other students there. That way you might not even have to do the whole homework yourself!

2. *CLAS*: <http://clas.sa.ucsb.edu/>

3. *Office hours*: Do not hesitate to come if you have homework questions or are confused about the materials. If you have a time conflict with my regular office hours, feel free to send me an email to make an appointment.

4. *Emails*: I do answer homework questions via emails. However, I might not respond immediately and I will not respond at all if you email me right before the homework is due. Also, be specific why you are having troubling and tell me what you have tried. The more thought you put into your email, the more useful my response will be.
