

JON MCCAMMOND

ADDRESS

Department of Mathematics
University of California, Santa Barbara
Santa Barbara, California 93106
Email: jon.mccammond@math.ucsb.edu
Webpage: <http://www.math.ucsb.edu/~jon.mccammond>

PROFESSIONAL EMPLOYMENT

Full Professor, U.C. Santa Barbara, 2006-present
Associate Professor, U.C. Santa Barbara, 2004-2006
Assistant Professor, U.C. Santa Barbara, 2002-2004
Assistant Professor, Texas A&M University, 1999-2002
Visiting Assistant Professor, Texas A&M University, 1997-1999
Instructor, Chabot College, Hayward, California, 1991-1997

OTHER EMPLOYMENT

Instructor, NSF Alliance for Minority Participation, California State University, Hayward, California, Summer 1996. Led a six-hour-a-day, five-day-a-week, four-week seminar for underrepresented minorities who had already completed a college-level calculus class
Instructor, City College, San Francisco, California, Summer 1991
Graduate Student Researcher supervised by John Rhodes, U. C. Berkeley, Summer 1991, Summer 1990, Summer 1989. Coauthored a manuscript for a graduate-level textbook entitled "Monoids, Semigroups, and Infinite Groups"
Graduate Student Instructor, U. C. Berkeley, Fall 1988. Led a weekly discussion session and graded computer programs for a junior-level numerical analysis course
Teaching Assistant, Bethel College, North Newton, Kansas, 1984-1988. Led a weekly problem and discussion session for twenty separate mathematics classes

EDUCATIONAL BACKGROUND

Ph.D. Mathematics, University of California, Berkeley, 1991
B.A. Mathematics, Bethel College, North Newton, Kansas, 1988
B.S. Physics, Bethel College, North Newton, Kansas, 1988
B.A. German, Bethel College, North Newton, Kansas, 1988

DISSERTATION

Title: "The Word Problem for Burnside Semigroups: A Positive Solution for $a \geq 6$ "
Committee Members: John Rhodes (chair), John Stallings, Latif Zadeh (Computer Science)

FUNDING

NSF, Principal Investigator: "Discrete and continuous geometry in group theory", Standard grant DMS-0805716, July 1, 2008 to June 30, 2011.

- NSF, Principal Investigator: “Geometric Group Theory via Geometric Combinatorics”, Standard grant DMS–0405k783, July 15, 2004 to June 30, 2008 (extended).
- NSF, Principal Investigator with L. Anderson, N. Brady, and R. Forman Co-PIs: “The Role of Curvature in Combinatorics”, Focused Research Group DMS–0101506, July 1, 2001 to June 30, 2004.
- NSF, Principal Investigator: “Geometric Group Theory”, Standard grant DMS–9971682, July 15, 1999 to June 30, 2002.
- Institute for Mathematics and its Applications, Principal Investigator with L. Anderson (Co-PI): “CombinaTexas 2001”, Conference grant, March 2001.
- NSF, Principal Investigator with L. Anderson (Co-PI): “CombinaTexas”, Conference grant DMS–0070834, May 1, 2000 to June 30, 2000.
- NSF, Faculty Associate: “Algebraic and Analytic Methods in the Mathematical Sciences”, Research Experience for Undergraduates, E. Letzter and A. Boggess Co-PIs, DMS–9912192, June 1, 2000 to May 31, 2003.

PUBLICATIONS

- “Factoring euclidean isometries” (with N. Brady) *International Journal of Algebra and Computation* **25** (2015), 325–347.
- “Triangles, squares and geodesics” (with Rena Levitt), *International Journal of Algebra and Computation* **22** (2012), 34 pages.

- “Gaps Between Connected Finite Graphs” (with R. Baldinger), *Inter. J. of Algebra and Computation* **2** (1992), pp. 19–32.
- “The Solution to the Word Problem for the Relatively Free Semigroups Satisfying $T^a = T^{a+b}$ with $a \geq 6$,” *Inter. J. of Algebra and Computation* **1** (1991), pp. 1–32.

“Gaps in Categories,” in J. Rhodes, editor, *Monoids and Semigroups with Applications*, pp. 83–85. World Scientific, Singapore, 1991.

PUBLICATIONS TO APPEAR

- “Braid groups and euclidean simplices” (with E. Leyton Chisholm) to appear in the Springer-INDAM proceedings of the Cortona conference, (21 pages).
- “Dual euclidean Artin groups and the failure of the lattice property” to appear in the *Journal of Algebra*, (41 pages).
- “The structure of euclidean Artin groups” to appear in the proceedings of the Durham conference (survey article) (34 pages).
- “The BNS-invariant for the pure braid groups” (with N. Koban and J. Meier), to appear in *Groups, geometry and dynamics*, (15 pages).

PUBLICATIONS SUBMITTED

- “The exceptional symmetry” (short note), 8 pages.
- “Curvature and computation” (expository), 10 pages.
- “The infinite cyclohedron and its automorphism group,” (with A. Fossas Tenas), 18 pages.
- “Artin groups of euclidean type” (with R. Sulway), 57 pages.

PREPRINTS

- “Geometric Semigroup Theory,” (with J. Rhodes) 40 pages.
- “An introduction to Garside structures,” 27 pages.

OTHER PUBLICATIONS

- “Integrating Polynomials in Secant and Tangent,” *American Mathematical Monthly*, **106**, (1999), 856–859.
- “Monoids, Semigroups, and Infinite Groups” (with J. Rhodes), 150 page unpublished manuscript used as a text in graduate classes at UC-Berkeley, 1994
- “The 0/1 Borsuk conjecture is generically true for each fixed diameter” (with G. Ziegler) unpublished (8 pages)

SHORT COURSES

- “Coxeter groups and Artin groups,” a series of four talks, Workshop on combinatorial, algorithmic and cryptographic aspects of group theory, Luminy, CIRM, Marseille, France, February 2007
- “The geometry of groups defined geometrically,” a series of four talks, Workshop on Geometric Methods in Group Theory, Fields Institute, Ottawa, Canada, August 2006
- “Constructing nonpositively curved spaces and groups,” a series of four talks, Durham Symposium on geometry and cohomology in group theory, Durham, England, July 2003

INVITED RESEARCH PRESENTATIONS

- “Instability in Triangle-Square Complexes,” Topics in geometric group theory conference: CAT(0) cubical and systolic complexes, Mathematical Research and Conference Center, Bedlewo, Poland, June 2007
- “The Intrinsic Geometry of Groups,” *Modern Mathematics: An Introduction to 2007-08 Programs at MSRI*, SACNAS conference, Tampa, Florida, October 2006
- “Pulling apart orthogonal groups to find continuous braids,” Conference on Geometric Group Theory, Centre de recherches mathématiques, Montreal, Canada, July 2006
- “Coxeter groups and Artin groups in geometric group theory,” Flavors of Groups, Banff Workshop, Banff, Canada, November 2005
- “Artin groups and polytopes” Wasatch topology conference, Park City, Utah, June 2005
- “The integral cohomology of the group of loops and a conjecture of Brownstein and Lee,” Sixth UCB-UCSB Algebra Day, June 2005
- “Noncrossing partitions for arbitrary Coxeter groups,” Institute for Advanced Studies / Park City Mathematics Institute on Geometric Combinatorics, Park City, Utah, July 2004
- “Expansions of semigroups,” International meeting on Semigroup Theory and Related Topics, Braga, Portugal, June 2003
- “Finding parking when not commuting,” Workshop in Geometric Topology, Park City, Utah, June 2003
- “The role of curvature in combinatorics,” Conference on topological and geometric combinatorics, Mathematisches Forschungsinstitut Oberwolfach, Oberwolfach, Germany, April 2003
- “A geometric approach to semigroup theory,” International Conference on Semigroups and Groups, Porto, Portugal, June 2002
- “A geometric approach to semigroup theory,” AMS-UMI Joint meeting in Pisa, Italy, June 2002
- “A new class of nonpositively-curved 3-manifolds,” Spring topology conference, Austin, Texas, March 2002
- “Algorithmic aspects of nonpositive curvature,” CRM Groups and Low-dimensional topology conference, Montreal, Canada, July 2001
- “Calculating the curvature of concrete complexes,” SUNY-Albany Topology and Group Theory conference, Albany, New York, Oct 2000
- “The curvature of posets associated to the braid groups,” International Conference on Geometric and Combinatorial Methods in Groups and Semigroups, Lincoln, Nebraska, May 2000
- “Curvature and quasiconvexity in geometric group theory, I: curvature,” Wasatch Topology Conference, Park City, Utah, August 1999
- “Curvature and quasiconvexity in geometric group theory, II: quasiconvexity,” Wasatch Topology Conference, Park City, Utah, August 1999
 - o “Extending Stallings’ algorithm to 2-complexes,” AMS-IMS-SIAM Joint Summer Research Conference on Geometric Group Theory and Computer Science, Mt. Holyoke College, July 1998
- “General versions of small cancellation theory,” Topology Festival, Cornell University, May 1998
- “The solution of the word problem for the Burnside semigroups,” Marquette Symposium on Semigroup Theory and Its Applications, Marquette University, March 1991

OTHER INVITED PRESENTATIONS

- “Non-crossing partitions in surprising locations,” Kieval Lecture Series Talks, Southern Oregon University, Ashland, Oregon, May 2007
- “Using Curvature to average trees,” Kieval Lecture Series Talks, Southern Oregon University, Ashland, Oregon, May 2007
- “Roots, Ratios and Ramanujan,” Sigma Xi Invited Lecture, Southern Oregon University, Ashland, Oregon, May 2007
- “Keeping your research program active,” *Project Next panel discussion*, Joint Math Meetings, New Orleans, Louisiana, January 2007
- “Mission Impossible: learning what cannot be done,” Sigma Xi lecture, Lafayette College, Easton, Pennsylvania, September 2006
- “Regular polytopes are everywhere,” Graduate student colloquium, University of California, Santa Barbara, September 2006
- “Square dancing in the pure braid group,” Putnam reunion, Bethel College, Kansas, March 2005
- “Non-crossing partitions in surprising locations,” Eastern Pennsylvania and Delaware Section of the MAA, November 2004
- “From Differential Geometry to Word Hyperbolic Groups: A combinatorial model of an analytic concept”, Survey talk, University of California, Santa Barbara, October, 2002
- “Metric trees in topology, geometry, and group theory,” Workshop in Linear Analysis and Probability, College Station, Texas, August 2001
- “The tea-kettle on the table by the stove: a talk in honor of Dr. Arnold M. Wedel,” Bethel College Fall Festival, October 1997
- “From Differential Geometry to Word Hyperbolic Groups: A combinatorial approach to an analytic concept,” Mathematics Graduate Student Organization, Texas A&M University, October 1998
- “Roots, ratios, and Ramanujan,” Pi Mu Epsilon, Texas University, April 2001

CONFERENCE PRESENTATIONS

- “Dual presentations for Artin groups,” *AMS Special session on geometric group theory*, Joint Math Meetings, New Orleans, Louisiana, January 2007
- “Möbius inversion and combinatorial curvature”, *AMS Special session on geometric combinatorics*, Cincinnati, Ohio, October 2006
- “Artin groups in a continuous context,” *AMS Special session on Geometric Methods in Group Theory and Semigroup Theory*, Lincoln, Nebraska, October 2005
- “Square dancing in the pure braid groups”, *AMS Special session on curvature in group theory and combinatorics*, Santa Barbara, April 2005
- “An introduction to Garside structures,” *American Institute of Mathematics*, conference on braid groups, clusters and free probability, Palo Alto, California, January 2005
- “Non-crossing partitions for arbitrary Coxeter groups”, Institute for Advanced Studies / Park City Mathematics Institute on Geometric Combinatorics, Park City, Utah, July 2004
- “Garside structures for (some more) Artin groups”, Conference on geometric group theory, Bedlewo, Poland, April 2004

- “Hypertrees and the l^2 betti numbers of the pure symmetric automorphism groups”, AMS Special session on Asymptotic aspects of group theory, Athens, Ohio, March 2004
- “Garside structures for free groups (and other Artin groups),” Special session on geometric group theory, AMS Sectional Meeting, Binghamton, New York, October 2003
- “Existence of CAT(0) structures for finite-type Artin groups,” RSME-AMS Joint Meeting, Special session on geometric methods in group theory, Seville, Spain, June 2003
- “Hypertrees, the pure symmetric automorphism groups, and their ℓ^2 -Betti numbers,” Wasatch topology conference, Park City, Utah, June 2002
- “Cube complexes for groups and manifolds,” AMS special session on geometry and topology, Salt Lake City, Utah, October 2002
- “Cube complexes for groups and manifolds,” AMS special session on geometric and combinatorial group theory, Montreal, Canada, May 2002
- “Algorithmic aspects of nonpositive curvature,” AMS-SMF Joint Meeting, Special session on geometric group theory, Lyon, France, July 2001
- “An algorithm to detect a nonpositively-curved metric simplicial complex,” Special session on geometric group theory, New Orleans, Louisiana, January 2001
- “The curvature of posets associated to the braid groups,” International conference on geometric and combinatorial group theory, Haifa, Israel, June 2000
- “Fans, ladders, and the coherence of groups,” Symposium on computation in group theory and geometry, Warwick, England, July 1999
- “Fans, ladders, and the coherence of groups,” Geometric groups on the gulf conference, Mobile, Alabama, May 1999
- “The coherence and quasiconvexity of Coxeter groups,” Special session on combinatorial topology, Joint Math Meetings, San Antonio, January 1999
- “Biautomaticity of various Artin groups,” SUNY-Albany Topology and Group Theory Conference, Albany, New York, October 1998
- “The perimeter of 2-complexes and the coherence of groups,” Computational and Geometric Aspects of Modern Algebra, Heriot-Watt University, Edinburgh, Scotland, July 1998
- “Coherence of groups and the perimeter of 2-complexes,” International conference on nonpositive curvature in group theory, topology, and geometry, Vanderbilt University, May 1998
- “Coherence of groups and the perimeter of 2-complexes,” International conference on algorithmic problems in groups and semigroups, University of Nebraska-Lincoln, May 1998
- “Torus knots and Artin groups of large type,” SUNY-Albany Topology and Group Theory Conference, Albany, New York, October 1997
- “Small cancellation theory and the Burnside groups,” Groups St. Andrews 1997 in Bath, University of Bath, August 1997
- “Torus knots and Artin groups of large type,” London Sussex Southampton Topology Conference and Geometric Group Theory Workshop, University of Southampton, July 1997
- “A general small cancellation theory approach to the Burnside groups,” SUNY-Albany Topology and Group Theory Conference, Albany, October 1996

COLLOQUIA

- “Artin groups and polytopes,” Equipe Algebre-Géométrie-Topologie, Université de Bourgogne, Dijon, France, June 2005
- “Constructing non-positively curved spaces and groups”, California Polytechnic State University, San Luis Obispo, May 2004
- “Algorithmic aspects of curvature”, University of California, Santa Barbara, March 2002
- “Calculating curvatures of concrete complexes”, University of Texas, December 2000
- “Calculating curvatures of concrete complexes”, Karcher Colloquium, University of Oklahoma, October 2000
- “Calculating curvatures of concrete complexes”, Vanderbilt University, September 2000
- “General versions of small cancellation theory”, Texas A&M University, January 1999
- “Constructing compact cores in negatively-curved 3-manifolds”, University of California, Davis, January 1999
- “Constructing compact cores in negatively-curved 3-manifolds”, State University of New York, Binghamton, February 1999

- “Small cancellation theory and the Burnside groups,” Algebra Seminar, San Jose State University, April 1996
- “General small cancellation theory and the Burnside groups,” Geometric Group Theory Seminar, University of California, Berkeley, Spring 1995 (a series of three talks)
- “Small cancellation theory and the Burnside groups” Topics in Automata Theory, University of California, Berkeley, Spring 1995 (a series of two talks)

RESEARCH INTERESTS

Geometric Group Theory (Artin groups, Coxeter groups, braid groups, Burnside groups and semi-groups, non-positive curvature, word hyperbolic groups, small cancellation theory)
Discrete Mathematics (Polytopes, graph theory, automata theory, regular languages)

Low-dimensional Topology (Knots, hyperbolic 3-manifolds, mapping class groups of surfaces)

SELECTED GRADUATE COURSE WORK

Metamathematics (R. Vaught)
Theory of Algebraic Structures (J. Rhodes)
Automata, Language and Machines (J. Rhodes)
Ring Theory (T. Lam)
Algebraic Number Theory (K. Ribet)
Algebraic Topology (M. Hirsch)
Homological Algebra (J. Rhodes)
Differential Topology (M. Hirsch)
Nonlinear Functional Analysis (S. Smale)

SELECTED COURSES TAUGHT PRIOR TO UCSB

Calculus 1 (Fall 1991, Spring 1992, Spring 1995, Spring 1997, Fall 1997, Fall 1998)
Calculus 2 (Winter 1992, Fall 1992, Fall 1993, Winter 1994, Fall 1995, Fall 1996, Spring 1999)
Multivariable Calculus (Winter 1993, Fall 1994, Fall 2000)
Differential Equations (Winter 1994, Spring 1996, Fall 1996, Spring 1998)
Linear Algebra (Spring 1995, Fall 1996, Spring 1998)
Introductory Statistics (Fall 1992, Winter 1993, Spring 1993, Winter 1994, Spring 1994)
Advanced Statistics (Fall 1993, Spring 1994)
Discrete Structures (Spring 1997, Fall 1998)
Modern Algebra I (Fall 1999)
Modern Algebra II (Spring 2000)
Topology (undergraduate Spring 2001)
Topology I and II(graduate Fall 2001 and Spring 2002)
Algebra and Combinatorics VIGRE seminar (Fall 1999) with Ed Letzter
Enumerative Combinatorics (graduate Fall 2000, Fall 2001)

COURSES TAUGHT AT UCSB

Honors calculus (Fall 2004, Winter 2005, Spring 2005)
Inquiry-based calculus III (Winter 2005)
Transition to Higher Mathematics (Fall 2002, Fall 2002)
Group theory (Spring 2003)
Abstract Algebra (ABC, Fall 2006-Spring 2007)
History of Mathematics (Spring 2006)
Non-euclidean geometry (Winter 2006)
Combinatorics (undergraduate Spring 2005)
Qualifying Exam Preparation (Fall 2003, Winter 2004)
TA training (Fall 2008)
Rings and Modules (Winter 2009)
Foundations of Topology (Fall 2004)
Homotopy Theory (Winter 2003, Winter 2010)
Differential Topology (Spring 2006)

Algebraic Topology (Winter 2008)
 Coxeter groups, Artin groups, and Garside structures (Topics course Spring 2004)
 Geometric Group Theory (Topics course Spring 2005, Fall 2009)
 Automorphism groups of elementary spaces (Topics course Winter 2006)
 Combinatorics (Topics course, Fall 2006)
 Exceptional mathematics (Topics course, Spring 2008)
 Metric vector spaces (Topics course, Fall 2008)

HONORS AND AWARDS

Mathematics Association of America Section Teaching Award (Southern California-Nevada), 2007
 Mathematics Department Mochizuki Award for Outstanding Achievement in Mathematics Instruction, Santa Barbara, California, 2006
 Montague-Center for Teaching Excellence Scholar, 2000-2001
 Outstanding Teaching Award, Texas A&M University, College Station, Texas, 2000
 Distinguished Teaching Award, Chabot College, Hayward, California, 1992
 Department of Defense National Need Fellowship, University of California, Berkeley, 1989-1991

PROFESSIONAL MEMBERSHIPS

American Mathematical Society
 Mathematical Association of America

CONFERENCES ORGANIZED

Co-organizer (with K. Bux and K. Wortman) *AMS Special Session on Lattices, Coxeter groups and Buildings*, Western sectional meeting, Santa Barbara, October 2009
 Co-organizer (with L. Anderson, N. Brady and R. Forman) *AMS Special Session on Curvature in group theory and combinatorics*, Western sectional meeting, Santa Barbara, April 2005
 Co-organizer (with A. Nica and V. Reiner) Braid groups, clusters and free probability, American Institute of Mathematics, January 2005
 Co-organizer (with N. Brand, J. Kung, and C. Yan) CombinaTexas: a combinatorics conference for the south-central U.S., University of North Texas, March 2002
 Co-organizer (with L. Anderson) CombinaTexas: a combinatorics conference for the south-central U.S., Texas A&M University, March 2001
 Co-organizer (with L. Anderson) CombinaTexas: a combinatorics conference for the south-central U.S., Texas A&M University, April 2000
 Co-organizer (with L. Anderson) *AMS Special Session in Combinatorial Topology*, Joint Meetings, San Antonio, January 1999

INSTITUTES ORGANIZED

Co-organizer (with M. Bestvina, M. Sageev, and K. Vogtmann) Mathematical Sciences Research Institute (MSRI) semester on geometric group theory, Fall 2007

PEER REVIEWS

Algebraic and Geometric Topology,

UCSB DEPARTMENTAL SERVICE

Graduate Vice Chair, 2007-2010
Member Graduate committee, 2006-2010
Member Recruitment committee, 2006-2007
Member Chair search committee, 2006-2007
Member Personnel committee, 2005-2006
Member Undergraduate committee, 2003-2006
GRE preparation workshops for UCSB undergraduate math majors, Fall 2004
Qualifying Exam Writer, Topology (Fall 2004, Spring 2005),
Qualifying Exam Writer, Algebra (Spring 2003, Spring 2006, Spring 2007),
Organizer, Discrete Geometry and Combinatorics seminar, Fall 2004-present

UCSB UNIVERSITY SERVICE

Member College of Creative Studies Mathematics Emphasis Committee, 2005-2006
Member of the Science and Mathematics Initiative Faculty Advisory Board, 2006-2007

NATIONAL SERVICE

Sigma Xi Lecturer, 2006-2008

Member of the AMS Committee on Meetings and Conferences, 2004-2007

Member of the Steering Committee for the Spring Topology and Dynamics Conference, 2005-2008

OTHER SERVICE - TEXAS A&M

Host for Frontiers' speaker Hyam Rubinstein, Fall 1999

Host for Frontiers' speaker Doron Zeilberger, Spring 2001

Exam Writer, High School Math Contest, Fall 1999, Fall 2000

Co-organizer (with L. Anderson), Algebra-Combinatorics Seminar, Summer 1999-present

Graduate Council Representative for Gena Valentine, Psychology

Graduate Council Representative for Mauricio Rodriguez, Biochemistry

Member of the Ph.D. committee for Woonjung Choi, graduated 2004

Member of the Ph.D. committee for Stephen Shauger, graduated 2001

Chair of the Master's committee for Terry McDonald, graduated 2002

Chair of the Master's committee for Scott Johnson, graduated 2002

Independent study in knot theory, Charles Johnson, Fall 1999

Undergraduate honor's thesis advisor, Kelli Carlson, Fall 2000

Summer REU in geodesic automata, 3 students, Summer 1999

ELECTED POSITIONS - CHABOT COLLEGE

Faculty Senate Vice President, 1993-1996. Elected to three consecutive one-year terms

Faculty Senator for the Division of Science and Mathematics, 1992-1996. Elected to two consecutive two-year terms

OTHER SERVICE - CHABOT COLLEGE

Chair, Accreditation Financial Standard, 1996-1997

Co-Chair, District Health Benefits Committee, 1995-1997

Chair, District Reserves Subcommittee, 1994-present

Member, College Budget Allocation Model Subcommittee, 1994-1995

Member, District Shared Governance Task Force, 1993-1995

Member, District Budget Committee, 1992-1997

Mathematics Faculty Coordinator, Quarter-to-Semester Conversion Process, 1992-1994

Facilities Coordinator, Expanding Your Horizons Conference designed to interest 12- to 14-year-old girls in math and science careers, 1991, 1993
