

Homework 14: Cryptography

*Due Friday, week 8**UCSB 2014***Homework Problems.**

There is one piece of text here: decode it! A tool to count characters can be found here: <https://www.mtholyoke.edu/courses/quenell/s2003/ma139/js/count.html>. Frequency tables can be found here: www.cryptograms.org/letter-frequencies.php. www.onelook.com is great for filling in words where you know some but not all of the characters. Replacing the .pdf on this link's URL with .tex will get you the .tex file, which will have plaintext for you to work with.
