

Curriculum Vitae

Xu Yang

Department of Mathematics
University of California
Santa Barbara, CA 93106-3080

Office: 6607 South Hall
Email: xuyang@math.ucsb.edu
www.math.ucsb.edu/~xuyang

Education

Ph.D. 2008, Mathematics, University of Wisconsin-Madison
M.S. 2005, Applied Mathematics, Tsinghua University, Beijing, China
B.S. 2003, Mathematics, Tsinghua University, Beijing, China

Research Interests:

Applied analysis and numerical computation of scientific problems arising from biology, seismology, materials science and geophysical fluids. Specifically, biological modeling, seismic imaging, computational methods for high-frequency wave propagation, dynamics of electrons in crystals, semiclassical approximation in quantum mechanics, atmospheric and oceanic modeling, kinetic transport in heterogeneous media.

Academic Experience

Employment:

Associate Professor, Department of Mathematics, University of California, Santa Barbara, since 2016.

Assistant Professor, Department of Mathematics, University of California, Santa Barbara, 2012–2016.

Associate Research Scientist, Courant Institute of Mathematical Sciences, New York University, 2010–2012.

Postdoctoral Research Associate, Program in Applied and Computational Mathematics, Princeton University, 2008–2010.

Visiting position:

Visiting member, Department of Mathematical Sciences, Tsinghua University, Beijing, China, August-September, 2014.

Visiting member, Institute of Natural Sciences, Shanghai Jiao Tong University, Shanghai, China, August, 2012.

Awards and Honors

Hellman Family Foundation Faculty Fellowship 2015–2016, UC Santa Barbara.

Regents Junior Faculty Fellowship 2013–2014, University of California, Santa Barbara.

Vilas Travel Grant Award, University of Wisconsin-Madison, 2008.

Excellence in Mathematical Research Award for 2006–2007, University of Wisconsin-Madison.

Research Grants

Principal Investigator, National Science Foundation grant DMS-1418936, “Kinetic Approaches for Multi-scale Problems in Quantum Chemistry and Seismology”, 2014–2017.

Advisors and Mentors

Advisors of master degree thesis: Professors Zhongyi Huang and Shi Jin.

Advisor of doctoral degree thesis: Professor Shi Jin.

Post-doctoral mentors: Professors Weinan E, Weiqing Ren and Eric Vanden-Eijnden.

Students and Postdocs

Student: James Hateley (2015 – present), Christopher Gorman (2015 – present, co-advised with Prof. Shiv Chandrasekaran), Lan Liu (2015 – present, co-advised with Prof. Hector Ceniceros), Ricardo Delgadillo (2012–2016, now a postdoc at Michigan State University).

Postdocs: Hailong Guo (Sep. 2015 – present), Lihui Chai (Jan. 2014 – present, co-supervised with Prof. Carlos Garcia-Cervera), and Jingrun Chen (July 2012 – Sep. 2015, co-supervised with Prof. Carlos Garcia-Cervera, now a tenure-track assistant professor at Soochow University, China).

Publications/Preprints

Teaching Experience

University of California, Santa Barbara

2017 Spring: Advanced Numerical Analysis (Undergrad level).

2017 Winter: Numerical Analysis (Undergrad level).

Multidimensional Analysis I. (course for College of Creative Study).

2016 Fall: Introduction to Numerical Analysis (Undergrad level).

2016 Spring: Fourier Series and Numerical Methods (Undergrad level).
Seminar in Mathematics.

2016 Winter: Partial Differential Equations (Undergrad level).
Freshmen Seminars.

2015 Fall: Differential Equations (Undergrad level).

2015 Spring: Seminar in Mathematics.

2015 Winter: Partial Differential Equations (Grad level).
Partial Differential Equations (Undergrad level).

2014 Fall: Differential Equations (Undergrad level).

2014 Spring: PDE's Finite Difference.

2014 Winter: Seminar in Mathematics.

2013 Fall: Differential Equations (Undergrad level).

2013 Spring: Fourier Series and Numerical Methods (Undergrad level).
Methods of Analysis.

2013 Winter: Partial Differential Equations (Undergrad level).

2012 Fall: PDE's Finite Element Method.

New York University

2010 Fall: Introduction to Mathematical Analysis I (recitation).

University of Wisconsin-Madison

2007 Fall: Calculus and Analytical Geometry (discussion section).

2006 Fall: Calculus and Analytical Geometry (discussion section).

Tsinghua University, Beijing, China

2005 Spring: Introduction to Complex Analysis (discussion section).

2003 Fall: Calculus (discussion section).

Academic Services

Organizer of the conferences:

Workshop: Mean-field modeling and multiscale methods for complex physical and biological systems. Department of Mathematics, University of California, Santa Barbara, October 31–November 3, 2016. (Co-organized with Lihui Chai and Carlos Garcia-Cervela)

Summer School on Quantum and Kinetic Theory for Complex Systems. Department of Mathematics, University of California, Santa Barbara, June 13–17, 2016. (Co-organized with Carlos Garcia-Cervela)

Minisymposium: Analysis, Modeling, and Numerical Methods for High Frequency Waves. International Council for Industrial and Applied Mathematics (ICIAM), Beijing, China, August 10–14, 2015. (Co-organized with Zhongyi Huang, Olof Runborg and Lexing Ying)

Member of scientific program committee: The Ninth IMACS Conference on Nonlinear Waves. Athens, Georgia, April 01–04, 2015.

Special Session: Recent progress in spintronics: Experiment, theory and simulation. The 10th AIMS Conference on Dynamical Systems, Differential Equations and Applications, Madrid, Spain, July 7–11, 2014. (Co-organized with Jingrun Chen, Carlos Garcia-Cervela and Sookyung Joo)

Minisymposium: Charge Transport with Applications to Solar Cells. SIAM Conference on Analysis of Partial Differential Equations, Lake Buena Vista, Florida, December 7–10, 2013. (Co-organized with Jingrun Chen and Carlos Garcia-Cervela)

Session: Recent progress in spintronics: Experiment, theory and simulation. International Conference: Applied Mathematics, Modeling and Computational Science – 2013, Waterloo, Ontario, Canada, August 26–30, 2013. (Co-organized with Jingrun Chen)

Session: Waves and Their Applications in Climate Science. The Eight IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, University of Georgia, Athens, Georgia, March 25–28, 2013. (Co-organized with Benjamin Akers)

Minisymposium: Computational Problems in Geophysics: Modeling, Imaging and Simulation. SIAM Conference on Computational Science and Engineering, Boston, Massachusetts, February 25–March 1, 2013. (Co-organized with Jinglai Li)

Minisymposium: Computational High Frequency Waves. The Eighth International Conference on Computational Physics, Hong Kong, January 7–11, 2013. (Co-organized with Hao Wu)

Minisymposium: Multiscale Computational Methods in Quantum Mechanics and High Frequency Waves. The 12th Annual Conference of China Society for Industrial and Applied Mathematics, Hefei, China, August 19–24, 2012. (Co-organized with Zhongyi Huang and Hao Wu)

Referee for the (selected) journals:

Multiscale Model. Simul., SIAM J. Applied Math., J. Comput. Phys., Commun. Math. Sci., Commun. Comput. Phys., Comput. Math. Appl., J. Comput. Appl. Math., Appl. Math. Model., J. Braz. Soc. Mech. Sci. & Eng., Front. Math. China, Wave Motion, J. Comput. Math., Computational Geosciences.

Invited Conference Talks

The 90th Anniversary Celebration of the Establishment of Mathematical Disciplines at Tsinghua University, Beijing China, April 21 – April 24, 2017.

SIAM Conference on Computational Science and Engineering (Minisymposium), Atlanta, Georgia, February 27 – March 3, 2017.

Workshop on Partial Order: Mathematics, Simulations and Applications, IPAM, University of California, Los Angeles, January 25–29, 2016.

Workshop on Collective Dynamics in Biological and Social Systems, Department of Mathematics, Duke University, November 19–22, 2015.

International Council for Industrial and Applied Mathematics (ICIAM), Beijing, China, August 10–14, 2015.

The First International Workshop on Mathematical Geophysics, Harbin Institute of Technology, Harbin, China, January 8–11, 2015.

The Seventh International Conference on Multiscale Materials Modeling, Berkeley, California, October 6–10, 2014.

Plenary speaker, 2014 Annual Meeting of Beijing Computational Mathematics Society, Tsinghua University, Beijing, China, August 28, 2014.

Mathematical and Numerical Methods for Complex Quantum Systems, University of Illinois at Chicago, March 26–30, 2014.

Workshop on Modeling Rare Events in Complex Physical Systems, Institute for Mathematical Sciences, National University of Singapore, Singapore, November 5–9, 2013.

International Conference: Applied Mathematics, Modeling and Computational Science – 2013, Waterloo, Ontario, Canada, August 26–30, 2013.

Receptor Fest, University of California, Santa Barbara, August 7–8, 2013.

The Second Pacific Rim Mathematical Association (PRIMA) Congress, Shanghai Jiao Tong University, China, June 24–28, 2013.

Quantum Systems: A Mathematical Journey from Few to Many Particles, University of Maryland, College Park, May 13–16, 2013.

The Eight IMACS International Conference on Nonlinear Evolution Equations and Wave Phenomena: Computation and Theory, University of Georgia, Athens, Georgia, March 25–28, 2013.

SIAM Conference on Computational Science and Engineering, Boston, Massachusetts, February 25–March 1, 2013.

The Eighth International Conference on Computational Physics, Hong Kong, January 7–11, 2013.

Second Biannual TCCS Research Meeting, Austin, TX, November 12–13, 2012.

International Workshop on Recent Advances in Scientific and Engineering Computing, Shanghai Jiao Tong University, Shanghai, China, October 20–22, 2012.

2012 Young Researchers Workshop: Kinetic Description of Model Scale phenomena, University of Wisconsin-Madison, October 10–13, 2012.

Random Media II, WPI-AIMR, Tohoku University, Sendai, Japan, September 3–7, 2012.

The 12th Annual Conference of China Society for Industrial and Applied Mathematics, Hefei, China, August 19–24, 2012.

The Sixth Workshop for Young Chinese Computational Mathematicians, ICMSEC, CAS, Beijing, China, August 8–9, 2012.

SIAM Conference on Nonlinear Waves and Coherent Structures (Minisymposium), the University of Washington, Seattle, Washington, June 13–16, 2012.

Summer Program on Electronic Structure Analysis and Computation, Shanghai Jiao Tong University, Shanghai, China, June 5–26, 2011.

SIAM Conference on Mathematical and Computational Issues in the Geosciences (Minisymposium), Long Beach, California, March 21–24, 2011.

International Conference on Computational and Mathematical Methods in Science and Engineering, University of Wisconsin-Madison, Madison, May 24–26, 2010.

Kinetic Description of Multiscale Phenomena: The 2010 Annual Kinetic FRG Meeting, Brown University, Providence, May 10–14, 2010.

Quantum-Classical Modeling of Chemical Phenomena, University of Maryland, College Park, March 8–11, 2010.

Kinetic FRG Young Researchers Workshop, University of Maryland, College Park, March 2–5, 2009.

12th International Conference on Hyperbolic Problems: Theory, Numerics, Applications, University of Maryland, College Park, June 9–13, 2008.

SIAM Conference on Analysis of Partial Differential Equations (Minisymposium), Mesa, Arizona, December 10–12, 2007.

Invited Colloquia and Seminar Talks

Colorado State University, April 2017.

University of South Carolina, February 2017.

University of California, Riverside, February 2017.

Beijing Computational Science Research Center, Beijing, August 2016.

Penn State University, April 2016.

Michigan State University, February 2015.

Purdue University, November 2014.

Beijing Computational Science Research Center, Beijing, September 2014.

Zhou Pei-Yuan Center For Applied Mathematics, Tsinghua University, September 2014.

University of California, Santa Barbara, (Grad Student Colloquium), February 2014.

University of California, San Diego, October 2013.

Peking University, July 2013.

Shanghai Jiao Tong University, July 2013.

Lawrence Berkeley National Laboratory, May 2013.

University of California, Santa Barbara, (Grad Student Colloquium on the π Day), 2013.

University of California, Riverside, February 2013.

University of California, Santa Barbara, October 2012.

Tsinghua University, Beijing, August 2012.

Shanghai Fudan University, August 2012.

Shanghai Jiao Tong University, August 2012.

University of California, Santa Barbara, May 2012.

McGill University, February 2012.

Florida State University, January 2012.
University of California, Santa Barbara, January 2012.
Carnegie Mellon University, December 2011.
Northeastern University, December 2011.
Shanghai Jiao Tong University, June 2011.
University of Wisconsin-Madison, December 2009.
PACM, Princeton University, February 2009.
Chinese Academy of Science, Beijing, China, November 2008.
University of Texas-Austin, October 2008.
University of Wisconsin-Madison, September 2008.

Conference Posters

AGU Fall Meeting, San Francisco, December 12–16, 2016.
Challenges in Geometry, Analysis, and Computation: High-Dimensional Synthesis, Yale University, New Haven, Connecticut, June 4–6, 2012.
Workshop on Multiscale Modeling, Analysis, and Simulations, Michigan State University, East Lansing, Michigan, March 27–28, 2008.
Workshop on Computational Methods in Transport, Lake Tahoe, California, September 9–14, 2006.
