Announcements regarding the midterm grades of 34B

Here are some announcements regarding the midterm grades.

A. Everyone is given a bonus of 10 points for the midterm. So please add 10 points to your score on the midterm. Reason: I would like to help everyone to get a better grade.

B. The break-down of the scores and grades of the midterm is as follows (with the 10 bonus points added):
   87 and up (grade A): 23 people.
   75-86 (grade B): 30 people
   58-74 (grade C): 38 people
   40-57 (grade C-): 18 people
   below 40 (grade D): 8 people
mean: 70.58929
medium: 72
Grades A+, A-, B+, B- and C+ will be given at the end of the quarter. Your final letter grade will be based on the combination of the midterm score (the actual score, not the letter grade as given above), the homework score and the final score.

C. If you did poorly on the midterm, but improve substantially on the final, I will give more weight to the final and the homework for you, in order for you to earn a C. If you are short of one point for getting an A or a B because of the midterm, and you do really well on the final, then I will also give more weight to the final and the homework to help you to get an A or a B.
