The SIAM Student Chapter at UCSB is organizing a

Research Mini-Symposium

The UCSB student chapter of the Society for Industrial and Applied Mathematics (SIAM) will be hosting a mini-symposium to showcase undergraduate research. This event will provide an opportunity to undergraduates who would like to share their research through a 25-minute talk, receive feedback from graduate students, and ask questions regarding grad school, or simply attend to hear some good talks.

Who: All are welcome to attend. Desired speakers are undergraduate students who have conducted research with mathematical content. All majors welcome. If you are unsure if your project qualifies, just ask!

When: 5-8pm on Friday, May 30th.

Where: UCSB South Hall, room to be announced.

Light refreshments will be served.

If you plan to attend, please RSVP! Those interested in presenting should submit a proposed title and abstract to the following address siam@math.ucsb.edu by May 27, 2014. Also, indicate need for a projector. For more on the UCSB SIAM student Chapter, see www.math.ucsb.edu/~siam.

Invited Talk: Professor Eleni Panagiotou will speak regarding her cutting-edge research in *applied topology*.
